

Vice Dean for Clinical Programs, Lewyt College of Veterinary Medicine
Long Island University
Post Campus, Brookville, NY

THE SEARCH

Long Island University Lewyt College of Veterinary Medicine (LIU-LCVM), the only Veterinary Medical School in the New York Metropolitan area and one of only five in the Northeast seeks an innovative, collaborative, and data-driven leader for the position of Vice Dean for Clinical Programs. Led by a world-class faculty, LIU-LCVM offers a comprehensive and innovative approach to education, emphasizing hands-on learning and real-world experience, equipping students with the essential skills and knowledge to excel in the field. With an inaugural class that graduated in 2024, this is an extraordinary opportunity for a transformational leader to help grow LIU-LCVM, build strong clinical partnerships, and support students to be the next generation of leaders in the field of veterinary medicine.

Reporting to the Dean of the LIU-LCVM the Vice Dean for Clinical Programs will oversee a distributive clinical veterinary program. The Vice Dean for Clinical Programs will recruit high quality clinical partners, ensure that mechanisms are in place for distribution of materials to clinical partners that details objectives and expectations of the clinical program, develop and deliver training modules for clinical partners, develop competency-based assessments for students, train clinicians to perform objective evaluation of students, collect and monitor feedback from students and partners regarding the clinical experiences, and develop partnerships that will enhance clinically-based research. The Vice Dean will be required to travel to clinical affiliates within the region, will lead contract negotiations with existing clinical partners, and source and develop new partnerships to ensure the best clinical experience for the students.

LIU has retained Isaacson, Miller, a national executive search firm, to assist in this recruitment. All inquiries, nominations, and applications with cover letters should be submitted in confidence to the search firm as indicated at the end of this document. The target salary for this role is \$175,000-250,000.

LONG ISLAND UNIVERSITY

Long Island University (LIU) was founded in 1926. The university is committed to providing a high-quality education through teaching excellence and impactful research opportunities. LIU offers over 230 undergraduate, graduate, and doctoral degree programs, educating nearly 16,000 students each year. The university cultivates academic, professional, artistic, and co-curricular opportunities.

LIU has expanded access to higher education for students for nearly a century. Achievement of evolving higher education goals requires innovative academic and career-relevant programs paired with high-impact learning opportunities. Current academic programs have been strengthened to provide a superior education, and new programs are in development to meet 21st-century workforce needs. Reflective in new schools and programs, the University continues to hire talented faculty from the nation's leading universities. As a result, LIU students will enter the workforce with the requisite academic and professional skills to fulfill career goals and meet employer demands.

LIU Brooklyn offers more professional programs in health care than any other campus in the New York metropolitan area, including the Arnold and Marie Schwartz College of Pharmacy & Health Science, The Harriet Rothkopf Heilbrunn School of Nursing, The Roosevelt School, and LIU's Health Professions. The Roc Nation School of Music, Sports and Entertainment provides dynamic instruction and interaction with top artists and industry leaders in the classroom. The Polk School of Communications is aligned with the nearly 75-year history of the university's Polk awards for investigative journalism.

LIU Post is a scenic, historic, and scholarly campus that offers a small-school environment with the access and resources of a major metropolitan university. The university's 334-acre campus is located on the former estate of Marjorie Merriweather Post, 27 miles east of New York City on Long Island's Gold Coast. The campus houses the College of Veterinary Medicine — one of only four in the northeast — the nation's first professional School of Accountancy, an AACSB-accredited Business School, recognized by Princeton Review as a top business school for 15 consecutive years, and a theater program ranked in the top 30 in the nation and a recipient of 20 Kennedy Center Awards. LIU is home to the world-renowned Tilles Center for the Performing Arts, featuring top artists and providing master class instruction for students.

LIU Global offers a one-of-a-kind bachelor's degree around the globe. It spans eight countries on five continents, preparing students for careers as global leaders in international business, entrepreneurship, and communications.

LIU's unwavering commitment to providing students a high-quality, affordable education is demonstrated through the in-demand programs, world-class faculty, and state-of-the-art academic and campus facilities the university provides to their exceptional students. Long Island University has a tradition of excelling in athletics. The Division I Sharks compete in 38 NCAA sports at the Bethpage Federal Credit Stadium and the Barclay's Center.

LIU's financial position is the strongest it has been in its long history, and the university's recognition as a national teaching and research university is solidified through this strength. The endowment has quadrupled from \$99.6 million in 2014 to over \$500 million as of August 31, 2025. Since 2014, LIU has continued to honor its pledge of affordable tuition with annual tuition rate increases of two percent or less. Average national and regional tuition rate increases were roughly double that during this timeframe. As a result, LIU tuition and fees are as much as 35 percent less than its regional peers.

From the shores of Long Island to the epicenter of business and tech innovation in Brooklyn, and to the far corners of the world, LIU offers a unique college experience for every student seeking academic enrichment and professional opportunity. Upon graduation, LIU students join a community of more than 220,000 alumni in 112 countries to become global leaders in fields that include the arts, health sciences, media, education, pharmacy, business, technology, public service, and professional sports.

LEWYT COLLEGE OF VETERINARY MEDICINE

The Lewyt College of Veterinary Medicine is the only such school in the New York Metropolitan area and one of only five in the Northeast. It began enrolling students in 2020, with its first class graduating in May 2024. Long Island University has substantially invested in enhancing existing research facilities and constructing a 33,000 square-foot state-of-the-art Veterinary Medicine Learning Center including a Clinical Simulation Suite where students can perform physical examinations, surgeries and medical imaging on virtual patients, and communicate with simulated clients.

Long Island University Lewyt College of Veterinary Medicine received Provisional Accreditation from the American Veterinary Medical Association, Council on Education (AVMA-COE) in April 2020. The College of Veterinary Medicine is one of the University's fastest growing and most competitive programs as the College currently has 450 veterinary and graduate students in the 2025-26 Academic Year.

The College of Veterinary Medicine offers hands-on learning through a unique distributed education model, featuring supervised clinical experiences across the Doctor of Veterinary Medicine program. Students develop multidisciplinary professional skills through the College's partnerships with more than 70 affiliates, including primary care, specialty clinics, zoos, research laboratories, shelters, veterinary industry leaders, and other universities.

Mission and Goals

The mission of Long Island University's Lewyt College of Veterinary Medicine is to awaken, enlighten and expand the horizons of its students through a commitment to excellence in program delivery, with access to veterinary education in a wide variety of species and commitment to innovation in teaching, research, and service to society.

Lewyt College of Veterinary Medicine Goals:

- To develop an innovative curriculum based on transformative experiential learning, scholarship and research, and mutually beneficial community collaborations.
- To provide a vibrant learning environment that promotes academic excellence, discovery and social accountability.
- To offer an innovative, accredited, and contemporary veterinary program that meets local and global society needs.
- To foster scholarship that contributes to the enhancement of the veterinary health profession.
- To produce globally competent, practice-ready and entrepreneurial veterinarians.

Long Island University's mission is to provide excellence and access in private higher education to people from all backgrounds who seek to expand their knowledge and prepare themselves for meaningful educated lives and for service to their communities and the world. In congruence with the mission of the University, the Lewyt College of Veterinary Medicine will provide students from all backgrounds the opportunity to enter the field of veterinary medicine. The Doctor of Veterinary Medicine (DVM) program will promote professionalism, community service and competence, making a strong positive impact upon the veterinary profession.

Departments

Faculty and staff who teach in the Doctor of Veterinary Medicine (DVM) Degree Program are housed in two academic departments: Veterinary Biomedical Sciences and Veterinary Clinical Sciences. Departmental faculty also contributes to the research mission of the Long Island University Lewyt College of Veterinary Medicine.

Veterinary Biomedical Sciences (VBS)

Veterinary Biomedical Sciences faculty members explore and teach important animal health concepts at multiple levels of biological organization, from molecular to whole animal. The department offers courses in anatomy, anatomical and clinical pathology, bacteriology, epidemiology, food safety, histology, immunology, mycology, parasitology, physiology, pharmacology, public health, toxicology and virology.

Veterinary Clinical Sciences (VCS)

Veterinary Clinical Sciences faculty members offer courses that prepare veterinary medical students to achieve day 1 professional competence or continue further specialty training. Faculty members offer courses in anesthesiology, animal behavior and welfare, diagnostic imaging, equine medicine, exotic animal medicine, laboratory animal medicine, large animal medicine and surgery, small animal medicine and surgery, veterinary professional skills courses, and clinical training of students during 4th year clerkships in collaboration with the Distributive Veterinary Educators Consortium (DVEC). DVEC faculty hold adjunct appointments.

Degree Programs

The LIU Lewyt College of Veterinary Medicine offers three degree programs: [Doctor of Veterinary Medicine](#), [MS Comparative Biomedical and Veterinary Sciences](#) and [Ph.D. Comparative Biomedical and Veterinary Sciences](#).

Research and Facilities

The LIU Lewyt College of Veterinary Medicine (LCVM) has a robust and progressive research program that is supported by grants from the National Institutes of Health, the United States Department of Agriculture-National Institute of Food and Agriculture, and other extramural sources. The primary areas of research focus by the faculty include [Infectious Disease](#), [Comparative Medicine & Therapeutics](#), and [Innovations in Veterinary Medical Education](#). Research emphasis areas interface with existing LIU strengths, including Pharmaceutical Sciences, Precision Medicine, Public Health, and Business & Entrepreneurship. CVM faculty are strategically clustered into research teams to promote interdisciplinary research between cluster areas, existing LIU faculty, and strategic external partners. Additional support faculty and staff include pathologists, postdoctoral fellows, technicians, graduate students, and undergraduates who support cluster research activity.

Research faculty have access to core equipment at LIU LCVM and at neighboring institutions, such as Cold Spring Harbor Laboratories and Stony Brook University. A robust graduate program is being developed to train the next generation of veterinarians and scientists.

College of Veterinary Medicine Facilities include:

- The Veterinary Medicine Learning Center
- The Veterinary Teaching and Research Center
- Research laboratories and core laboratories in Pell Hall
- Research laboratories in Life Sciences
- The Vivarium in Life Sciences

KEY OPPORTUNITIES AND CHALLENGES FOR THE VICE DEAN FOR CLINICAL PROGRAMS

Enhance existing clinical partnerships and develop new partnerships.

The Vice Dean should be a collaborative leader who can enhance the existing relationships with clinical partners and develop new high quality clinical partnerships. They will ensure that all clinical partners have a clear understanding of the objectives and expectations of the clinical program, including developing

substantive hands-on opportunities for students that will ensure they are day one ready veterinarians. They will serve as an ambassador for LIU-LVCM traveling to clinical affiliates within the region, leading contract negotiations with existing clinical partners with the goal of ensuring the best clinical experience for the students.

Develop strong systems of assessment for the clinicians and students and maintain accreditation standards.

The Vice Dean will be responsible for creating and maintaining competency-based assessments for students and train clinicians to perform objective evaluations of students, collect and monitor feedback from students and partners regarding the clinical experiences. In addition, they will provide feedback and guidance to clinical partners on how to improve effectiveness as a clinical educator.

Create a holistic approach to student support and continue to implement the vision for the college.

Working in close partnership with the Vice Dean for Academic Affairs, the Vice Dean for Clinical Programs will help foster cohesive student support and clear communication between academic affairs and clinical affairs. The Vice Dean will also play a pivotal role as part of the Dean's leadership team as the college continues to grow and evolve.

QUALIFICATIONS AND CHARACTERISTICS

Required Knowledge, Skills and Abilities: LIU-CVM seeks an accomplished, self-driven leader with outstanding interpersonal, communication, and organizational skills. The Vice Dean will share a commitment to providing high-quality veterinary education, consistent with the mission and values of Long Island University College of Veterinary Medicine.

The Vice Dean will have:

- Demonstrated knowledge in veterinary clinical settings; ability to articulate and uphold high expectations for clinicians and scientists;
- Proven ability to interact well with members of the veterinary education community, faculty, students, and alumni;
- Understanding of the complexities of a distributed model of clinical veterinary education;
- The ability to work cooperatively and effectively as a member of LIU-CVM leadership team;
- Familiarity with compliance and reporting requirements for accreditation (AVMA-COE Standard 4- Clinical Resources, Standard 9 -Curriculum and Standard 11- Outcomes Assessment)

The individual will supervise personnel assigned to the office and serve as a member of the college leadership team.

Qualifications: Eligible applicants must hold a DVM (or equivalent) degree, a licensure in good standing to practice Veterinary Medicine and specialty board certification. Applicants with leadership experience within the veterinary profession are encouraged to apply. Additional requirements for this position include effective administrative experiences, a commitment to excellence in professional veterinary medical education, a clear understanding of issues related to diversity, equity and inclusion, and a willingness to lead finding innovative solutions to emergent issues affecting the veterinary profession.

COMPENSATION AND LOCATION

This is a permanent, full-time position in Brookville, New York with a starting salary range of \$175,000-\$250,000 and will be commensurate with experience.

APPLICATIONS, INQUIRIES, AND NOMINATIONS

Screening of complete applications will begin immediately and continue until the completion of the search process. Inquiries, nominations, referrals, and CVs with cover letters should be sent via the Isaacson, Miller website: <https://www.imsearch.com/open-searches/long-island-university-lewytt-college-veterinary-medicine/vice-dean-clinical-programs>
